REASONS FOR ALLOWANCE

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the references of record teaches or suggests as cited in claims 1, 17: a monolayer of a first plurality of substantially parallel first molecular units having first and second ends, each said parallel first molecular unit having a length, wherein each of said parallel first molecular units is of substantially the same length and is attached through its first end to said first contact surface through a conjugated bond; a second conductive component having first and second sides, said first side in electrical contact with said second ends of said parallel first molecular units, and said second side having a second contact surface; a monolayer of a second plurality of substantially parallel second molecular units having first and second ends, each of said parallel second molecular units attached through their first end to said second contact surface through a conjugated bond; and a third conductive component having first and second sides, said first side in electrical contact with said second ends of said parallel second molecular units.

Applicants' undersigned representatives filed an amendment on 12/7/05, and also filed at that time a terminal disclaimer statement with reference to USP: 6,855,950 B2.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: McCreedy (6,855,950 B2): Method for Conductance Switching in Molecular Electronic Junctions.
